*made with care using  
authentic postage stamps  
and coins*

# Casually elegant jewelry

CelticBelle jewelry is handcrafted by artist Mary Lynn Maloney in her Pacific Northwest studio. Mary Lynn uses postage stamps and coins from the various Celtic Nations, many of which she collected during her world travels. The stamps and coins are preserved under a sleek dome of UV-resistant resin. Pendants are lead-safe pewter, cast in the USA, and plated in antique silver or copper. All stamps and coins are the real thing: never photocopies or reproductions. Each piece is unique and stamps will vary depending upon availability and supply.

# that combines art, history and heritage

We now offer some items made with postage stamps that honor Scotland and Wales! There were fewer stamps issued over the years depicting specific images associated with Scotland and Wales, so the 'stamp pool' is much smaller to draw from than that of Ireland. Therefore, please note that when you specify "Scotland," you will receive an assortment of 3 different stamp designs (see photos of SP-101, SP-106, and SP-303). When you specify "Wales," you will receive just 1 design (see photo for SP-103). When you specify "Ireland," you will receive a large variety of stamp designs.
